DESIGNER PROFILE

Engineer turned Product Designer, blending technical thinking with creative problem-solving to build intuitive, user-first digital experiences. I foucus on making products feel clear, effortless, and thoughtfully designed, from product flows and interactions to visiuals systems and overall experience.

EXPERIENCE & IMPACT

Tifstay Technologies Pvt Ltd **Feb 2026 – April 2026**

- **Design System:** Developed the overall design system for its app ecosystem.
- **Logo & Identity:** Built the logo, typography, and overall brand identity.
- **Creatives:** Created social media posts, posters, flyers, and other brand creatives.
- **UX / UI Design:** Handled the overall UX and UI work across a couple of its apps.

Design Engineer - Altius | Nagpur **May 2025 – Nov 2025**

- **Product Design + Engineering:** Lead UI/UX and front-end improvements across flagship SaaS and mobile products, bridging design thinking with technical execution.
- **eSIM / E-Roaming Platform:** Designed the end-to-end landing experience and user flows for an e-roaming SIM platform, with a focus on clarity, conversion, and ease of use.
- **Kaya Clinic App:** Designed a streamlined mobile experience covering customer support, call tracking, and demographic data management.
- **AI Chatbot Experience:** Shaped the visual identity and UX for Altius Chatbot, creating a modern and approachable AI experience.
- **IoT Commerce:** Leading UI/UX for an IoT platform, simplifying complex SIM + plan purchase journeys into a more intuitive experience.

UX Designer - AZLogics | Nagpur **May 2024 – March 2025**

- **AZAPI.AI:** Led product UX from initial concepts through launch, shaping the experience of an AI-powered API platform.
- **Product Research:** Conducted user research and competitive analysis for products and brands including ClearTax to identify user needs and market opportunities.
- **Dashboard UX:** Simplified complex API workflows into an intuitive RPACPC Client Panel, improving usability for technical and non-technical users.
- **KYC Plus:** Designed a wizard-based banking experience focused on accessibility and ease of use across diverse age groups.

UI/UX Designer - Wasserstoff | Gurugram **Feb 2024 – May2024**

- **Astrix:** Led product design for an NFT ticketing platform built in collaboration with Rolling Stone India.
- **eb3 UX:** Translated complex blockchain concepts into simple user flows and high-fidelity interfaces designed for mainstream, non-technical audiences.
- **Product Experience:** Helped shape a fraud-resistant ticketing ecosystem focused on making Web3 interactions feel familiar and accessible.

UI/UX Engineer - iCover Inc. - Remote, USA **Oct 2022 – Feb 2023**

- **Fintech & Insurtech:** Designed end-to-end user flows for financial and insurance products, simplifying complex compliance-driven experiences.
- **Cross-Functional Design:** Collaborated with engineers and product teams to translate technical requirements into scalable, user-friendly interfaces and design systems.

UI/UX Designer - PowerFan.io - Remote, South Korea **Sep 2022 – Oct 2022**

- Designed interfaces for blockchain-based software products focused on B2B partner integrations.
- Collaborated across product and technical teams to create clear, functional user experiences for complex workflows.

EDUCATION

Jhulelal Institute of Technology, Nagpur **2019 – 2023**
Bachelor of Engineering - Computer Science

MGCS Junior College, Nagpur **2017 – 2019**
Higher Secondary Certificate - Science

New English High School, Nagpur **2016 – 2017**
Secondary School Certificate

CERTIFICATION

Winner - Mayor's Innovation Hackathon 2019, (In top 200 out of 1500 projects) **01st July 2019**
Project: Smart Notebook

PUBLICATIONS

Led UI/UX design and flow for a final-year AI project; published in IEEE. **01st Dec 2022**

A non-fiction exploration of The Beatles, based on interviews with individuals behind their rise. **01st Dec 2020**

A personal collection of original poems **01st Dec 219**

DESIGN TOOLS & SOFTWARE

- **Figma :** Advanced use for UI/UX design, wireframing, interactive prototyping, responsive layouts, component libraries, and design systems.
- **Adobe XD :** Used for wireframing, prototyping, user flows, and designing web and mobile interfaces.
- **Adobe Photoshop :** Created and refined visual assets, product mockups, image compositions, marketing creatives, and digital artwork.
- **Adobe Illustrator :** Designed vector graphics, icons, logos, illustrations, and scalable brand assets.
- **Miro :** Used for brainstorming, user journey mapping, information architecture, workshops, and collaborative ideation.
- **Vibe Coding & Frontend:** Build and iterate on lightweight web experiences using AI-assisted development, HTML, CSS, JavaScript, responsive layouts, and design-to-code workflows.
- **Claude Ai :** Used for UX writing, idea exploration, content structuring, and improving product thinking during the design process.
- **ChatGPT Ai :** Used for design ideation, UX research support, content generation, usability considerations, and AI-assisted design workflows.
- **Google AI Studio:** Used to explore AI-powered product concepts, multimodal workflows, and rapid design experimentation.
- **Google Antigravity:** Used for AI-assisted prototyping, vibe coding, rapid experimentation, and turning design concepts into functional web experiences.

ADDITIONAL INFORMATION

- **Design:** Product Design, UI/UX Design, UX Strategy, User Research, Interaction Design, Design Systems, Wireframing, Prototyping, Visual Design, Responsive Design, Branding & Graphic Design.
- **Collaboration:** Client Communication, Stakeholder Collaboration, Developer Handoff, Cross-functional Collaboration, Startup Collaboration.
- **Product & Strategy:** Problem Solving, Design Thinking, Product Thinking, User-Centered Design, Design Strategy.
- **AI & Emerging Workflows:** AI-Assisted Design, AI-Assisted Research, AI Prototyping, Vibe Coding, Design-to-Code Workflows.
- **Additional:** Social Media & Visual Communication, Project Coordination.
- **Languages:** English, Hindi and Marathi.
